Topic

We recently held a meeting to review the public comments and votes. We broke out into 3 groups and went over all the comments and suggestions and then discussed our pros and cons.

The committee met back together shared their overall thoughts and then voted individually for their recommendation.

Our next meeting will be held on 2/26/24 on Zoom, from 4-6 pm. We will have Vendor Presentations in this meeting - a fantastic opportunity to see the resources that could potentially benefit our students.

1. Reach out to the board members to share your support on your recommendation and support the committee process, if you want!
